

Quick Coupler Key Hose Adapter - 1" w/Hose RG900USR-5

Details

Designed to deliver full-flow capability, the threaded connection attaches or adapts to any quick coupler or sprinkler. This 1" NPT hose flexes without kinking to provide full water flow at all times, as opposed to current designs with a 90 degree elbow which restricts water flow due to the directional change and reduced inside diameter of the brass casting. The full-time swivel provides 360 degrees of hose movement. The hose and hose ends are rated for 200 PSI.
