

# Rain Bird XFD On-Surface Dripline - 0.6gpm 12" Spacing 500' Coil

RGXFD-06-12-500

## Details

This dripline is made of a unique material that offers significantly greater flexibility for tighter turns with fewer elbows for easier and faster installation. The patent-pending, pressure-compensating inline emitter design provides a consistent flow over the entire lateral length, ensuring higher uniformity for increased reliability in the pressure range of 8.5 to 60 psi. Dual-layer tubing (brown over black or purple over black) provides unmatched resistance to chemicals, UV damage and algae growth to effectively irrigate ground cover, dense plantings, hedge rows and more.

## Specifications

Manufacturer	Rain Bird
Length.	500 ft
