

Groundskeeper II Rake 21in Yellow

Set/6

RP275

Details

The lightweight Groundskeeper II features an unbreakable co-polymer head and fiberglass handle for durability. The angled, spring-loaded tines make the rake dig in, requiring no down pressure. This allows you to stand up straight, taking the pressure off your back. Simply turn the rake over with one pass to clean. Ideal for leaves, mulch, pine needles, snow mold, gravel debris, de-thatching grass or grooming sand traps on the golf course without pulling the sand into the grass. Swivel hanger for easy storage. Available in 21" rake head with 28 tines, 9" shrub head with 12 tines or the 6" mini-shrub rake head with 8 tines which is perfect for hard to reach areas under shrubs and bushes. 55in Handles. Repair Tine Kit available. UV inhibitor. Box of 6.
