

Pocket Digital Thermometer (F) and (C)

RTT1019

Details

Read soil temperatures within 10 seconds in thatch, mat or root zone for effective overseeding and before pre-emergent weed control applications. The temperature sensor at the tip of the 3-1/4" (9 cm) stainless steel probe, allows readings at different depths from 1" to 3-1/2" deep and temperature range of -40F to 300F and -40C to 150C. Minimum and maximum temperature readings are viewed with a separate button. Turns off after one hour. Foldable, easy-to-carry, probe protected. Digital.

- Able to read temperatures within 10 seconds in thatch, mat or root zone
- Effective for overseeding and before pre-emergent weed control applications
- 3-1/4" stainless steel probe allows readings at depths of 1" to 3-1/2" deep
- Temperature reading range of -40F to 300F or -40C to 150C
- Automatic shut off after 1 hour
- Foldable, easy-to-carry probe
- Digital
