

Air Force 15in Hover Mower Hi-Lift Kit - 3in HOC RAF1550

Details

The Air Force 15in Hi-Lift Kit features a bracing and a clip style attachment system for mowing higher with your hover mower - and it's 100% tool-free! Easy to mount, easy to clean, less parts to keep track of and a much better fit. Effectively raise the maximum height of cut from 2in to 3in with no loose parts on the kit and attaches and detaches in 30 seconds with no tools needed. The supports are built into the ring with no additional spacers. Designed with clip installation that stays attached to the ring to make putting on and taking off easy and fast. The fit is tight without interrupting air flow or reducing performance. The lift kit inner wall was raised to fit snug against the inner wall of the deck to fit secure under the mower and greatly reduce loss of air flow. HOC 2in - 3in lift. Fits Air Force F-15 and F-15 Gen 3 models.

- Can Raise the Maximum Height of cut from 2in to 3in with No Loose Parts on the Kit
